Summary:

Passionate data enthusiast and learner with a solid background in machine learning. Dedicated to leveraging technology to drive positive social impact. Skilled in Python programming, with hands-on experience in developing AI solutions and conducting data-driven research.

Work Experience:

Machine Learning Engineer | Tensor Labs | Islamabad, Pakistan

(January 2023 - September 2023)

- Developed and deployed machine learning initiatives, optimizing algorithms for enhanced performance.
 - Collaborated with senior team members to analyze data sets and derive actionable insights for decision-making processes.
 - Spearheaded the extraction and analysis of datasets crucial for the development of innovative solutions.
 - Contributed to testing and validation procedures, ensuring the accuracy and reliability of machine learning models.
-

Relavant Projects:

Data Science Project Contributor | [Alfred AI's Clothing Extension](#) | Tensor Labs

- Led the extraction of datasets and selection of relevant body characteristics for precise size recommendations.
- Implemented robust technical processes and user-centric features, enhancing the fashion recommendation extension.

- Utilized regression modeling techniques to provide tailored size recommendations, addressing diversity in body shapes.

Education:

Masters of Management - Data Science | U Hasselt | Hasselt, Belgium

(Expected Graduation: 2025)

Bachelor of Business Administration | FAST - National University of Computer and Emerging Sciences | Islamabad, Pakistan

(2015 - 2019)

Professional Skills:

- Problem Solving
- Team Collaboration
- Leadership

Technical Skills:

- Python (Data Analysis, Machine Learning)
- Spreadsheets (Microsoft Excel, Google Sheets)
- SAP (Signavio)
- Statistical Analysis (IBM SPSS Statistics)

Certifications:

- Machine Learning A-ZTM: Python & R in Data Science - Udemy
- Python for Machine Learning & Data Science Masterclass - Udemy

Social Initiative:

Founder | The Path | Pakistan

(August 2021 - Present)

- Established a national educational initiative leveraging technology to provide quality education to underserved students.
- Developed strategic partnerships to scale the impact of the campaign and reach remote communities effectively.
